

Sendungen müssen so gesichert werden, dass eine Bewegung oder Beschädigung während der Beförderung (z.B. Bremsen, scharfe Kurven) verhindert wird.

Shipments must be secured to prevent movement or damage during transport (e.g. braking, sharp turns).

A szállítmányokat rögzíteni kell, hogy megakadályozzák a szállítás közbeni elmozdulást vagy sérülést (pl. fékezés, éles kanyarok).

Transporturile trebuie să fie fixate pentru a preveni mișcarea sau deteriorarea în timpul transportului (de exemplu, frânare, viraje bruște).

Naklije sırasında hareket veya hasar (örneğin frenleme, keskin dönüşler) önlemek için gönderiler emniyete alınmalıdır.

Pošiljke moraju biti osigurane kako bi se spriječilo pomicanje ili oštećenje tijekom transporta (npr. kočenje, oštra skretanja).
